- Over 1000 Terminations
- Extensive Backbone

About the Client

The Center for Statistical Sciences is part of the Public Health Program at Brown University. The mission of the Center is to foster research and statistical education at the Division of Biology and Medicine; and the University at large. The faculty and staff of the Center conduct Biostatistics and Interdisciplinary research in a broad range of areas within Medicine, Public Health and Biology.

Scope of Work

SyNet continues to support the technology integration needs of Brown University in conjunction with their ongoing building acquisitions.

For the South Main Street Project, SyNet worked in partnership with MPM Properties. Utilizing a multi-phased approach -- backbone and horizontal cabling was installed on several floors; this cabling was needed to support many departments throughout the Statistical Sciences Center on the Brown University campus.
