About the Client

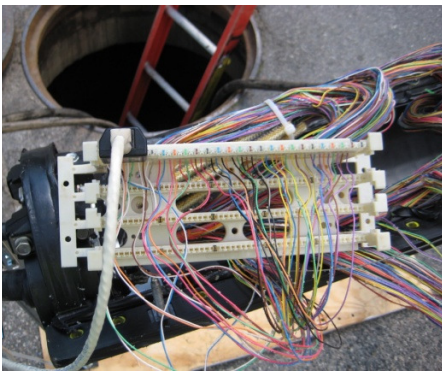

Providence College is a private, co-educational, Catholic institution of higher education. Providence College is committed to fostering academic excellence through sciences and humanities; and provides a variety of opportunities for intellectual, social, moral and spiritual growth in a supportive environment.

Scope of Work

SyNet supplied the materials, labor and project management expertise for the installation of OSP indoor/outdoor fiber optic cabling -- running from Phillips Library to Accinno Hall (which houses classrooms and laboratory facilities), and from Phillips Library to the Aquinas and Guzman Residence Halls.

Additionally, while on site, SyNet removed and replaced a faulty 300 pair fiber optic splice located between Phillips Library and Aquinas Hall; that had sustained significant water damage.

Finally, SyNet provided services for connect cabling, terminating, testing and labeling of the Big East Cameras located in the Alumni Gymnasium.
